COMPANY PROFILE

5GWorldpro is a Telecom Training and consulting Company

TRAINING

1 We provide certified training in mobile and wireless technologies, through intuitive learning platforms.

We deliver the highest quality of teaching

Recorded training

Live Virtual training

Classroom training

CONSULTING

2 We accompany our customers in domain of ICT end to end, from initial strategy all the way to implementation, integration and orchestration

40+ Technology courses available

Our catalogue includes a wide range of topics, covering a spectrum of technical levels delivered in Live or on demand

A dark blue rounded rectangle with a faint, glowing network pattern in the background. The text "5G" is prominently displayed in a large, light blue font, with a smaller "5G" in white below it, separated by a vertical line.

5G

A dark blue rounded rectangle with a background image of a robotic hand holding a glowing orange sphere. The text "ARTIFICIAL INTELLIGENCE" is written in white, with "ARTIFICIAL" on the top line and "INTELLIGENCE" on the bottom line, separated by a vertical line.

ARTIFICIAL
INTELLIGENCE

A dark blue rounded rectangle with a background image of server racks. The text "Cloud & Virtualization" is written in white, with "Cloud &" on the top line and "Virtualization" on the bottom line, separated by a vertical line.

Cloud &
Virtualization

A dark blue rounded rectangle with a background image of a hand pointing at a glowing green sphere. The text "Wifi" is written in white, preceded by a small icon of two people, separated by a vertical line.

Wifi

A dark blue rounded rectangle with a background image of server racks. The text "Cybersecurity" is written in white, preceded by a small icon of a globe, separated by a vertical line.

Cybersecurity

A dark blue rounded rectangle with a background image of a hand pointing at a glowing green sphere. The text "IoT" is written in white, preceded by a small icon of two people, separated by a vertical line.

IoT

Most Popular Courses

We are committed to deliver content in a way that will best suit individual learners and their needs

5G TRAINING FOR EVERYONE

It will allow you to have a very good understanding of all 5G technical concept in a very clarifying way

5G TRAINING FOR BUSINESS

Learn about 5G business aspects from enterprises and telco's, new business models and how 5G monetization can be achieved.

5G NR ADVANCED TRAINING

5G technical Training which will provide an in-depth description of 5G New Radio technology as defined by 3GPP standards and specification.

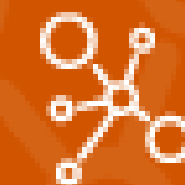

5G NR RF PLANING TRAINING

it provides technical insights into radio network planning principles for 5G deployments in both the mid-band and mm-wave sith a fo

5G KPI, 5G OPTIMIZATION AND 5G TROUBLESHOOTING

It will allow you to understand with practical cases how to troubleshoot and optimize main 5G KPIs to improve performance of your 5G network.

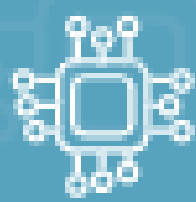

5G OPEN RAN TRAINING

it provides a technical overview of Open RAN and specifically O-RAN from the O-RAN Alliance.

5G Private Network Training

This 5G course deeps dive into 5G Private Network, talking about the drivers, challenges and deployment models

5G CORE AND 5G SLICING TRAINING

it focuses on the functionalities of the 5G core (5GC) network for the 5G Standalone, with deeping dive into 5G Network Slicing,

CLOUD, NFV AND KUBERNETES

The course discusses different approaches for virtualization and describes the concepts of Docker and Kubernetes and provides comparison with openstack.

5GWordPro Advisory & IOT services aims to create value around new use cases revolutionized by 5G

5G for Smart Cities

5G for Smart Airports

5G for Smart Ports

5G for Smart Mining

5G for Smart Agriculture

5G for Advanced Manufacturing

**Increase
Productivity**

Reduce costs

**Create new business
models**

Partner with us for Enterprise Solutions

Talk to us about your **training needs** and **opportunities** to **upskill** and **grow** your business with **ICT** and **5G technologies**
